MAHONING | Terra Series Coal Burning Heater

Mahoning Outdoor Furnaces provides quality products, with a commitment to service, at fair and reasonable pricing. We're experienced in the manufacturing of outdoor heaters and pay attention to the details important to delivering the final product to our valued customers. Mahoning Heaters are a flexible, easily-adapted alternative heating source for a variety of different heating requirements, whether forced air or hot water.

Our coal burning heaters offer many unique advantages, in a range of applications:

- **Residential** – Heating and domestic hot water are provided by the same heater.
- **Multi-Unit Buildings** – One heater can safely and effectively provide heat and hot water for multiple buildings.
- **Hot Water** – Heat pool, hot tub, or spa.
- **Barns** – Plenty of warm water, air, and heat to maintain valuable livestock.
- **Green Houses** – Constant supply of warm air and warm water to facilitate year-round growing.
- **Churches** – Control utility costs on very large, difficult to heat structures.
- **Body Shops** – Eliminates dust and reduces fire danger from paint fumes.

Savings/Affordability:

- One unit heats your home and domestic hot water.
- One heater can be used to heat multiple buildings.
- The heater connects to any existing forced air system, hot water system, or in-floor system.

Durable & Desirable Design Features:

- 1/4" plate steel water tank and firebox.
- 24 gauge stainless steel exterior.
- Additional portals for zone heating, such as a separate out building which needs to be heated.
- Furnace water level and water temperature gauges.
- Shaker grates with exterior handles make ash removal easy.
- Large capacity ash pit and generously sized ash clean-out door.
- Installs with any existing forced hot air, hot water, and in-floor system.

Safety Features:

- The heater is outside, so all dirt, dust, fuel, and fire are isolated outside the house.
- All Mahoning heaters are non-pressurized.

Warranty:

- Product has a 3-year warranty and 1-year warranty on all electrical components. Shaker grates and door gaskets are excluded from warranty coverage.

Quality:

- Water tank and firebox are made from 1/4" plate steel.
- Exterior and smoke stacks are made of stainless steel.
- Electrical connections and circulation pump are enclosed in an insulated cabinet.

Additional Options:

- 3' smoke stack extensions.
- Hot tub or swimming pool water heating coils.
- Second domestic hot water coil.
- Additional portals for zone heating.
- Nurse tank for large, domestic hot water demands.
- Heat exchangers in sizes to fit any heating needs.
- Air handlers for easy floor or ceiling mount.
- Flat plate heat exchangers.

Terra Series: 41"W x 47.5"L x 63.25"H - 1900 lbs.
